A Garden for the Kiddies

All children should eat at least one fresh vegetable daily and most children would "rather not," but if they can have a garden of their own, where they plant and hoe and watch things grow and be made to think of fanciful names for each vegetable, they will soon learn not only to eat but to enjoy eating the things that they help to grow. With this in mind, we have listed a few of the easy to grow vegetables and flowers for a space of 10 x 15 feet.

The Kiddies Home Garden Collection:

Sweet Peas, Assorted Colors.
Four O'clock, Assorted Colors.
Balsam, Mixed Colors.
Marigold, Golden Orange.
Nasturtiums, Mixed.
Calendula, Yellow.
Beets, Dark Red.
Beans, Golden Wax.
Lettuce, Leaf.

Radish, Round Rfd.
Parsley.
